Website Health Check — After the Redesign

fgirenonv.com (new website) — Feel Good Insurance, Sparks NV · October 10, 2026

Excellent — every problem found in the first audit has been fixed, and the new site scores at the top of Google's own tests.

Score scale: **1** = very poor, **10** = the best of the best. The last half point depends on business information only the owner can provide (see page 5).

Score by area — before vs. after

✓ In plain words

- The site now loads **about 3× faster on phones** and almost instantly on computers.
- It is available in **English and Spanish**, with real translations Google can find.
- Google can now clearly see it is a **local insurance agency in Sparks** — address, phone, services, areas and FAQs.
- Visitors can get a quote in 2 minutes, call or text with one tap, and find what they need easily.

Google’s own test (Lighthouse) — new website

Lighthouse is the free testing tool Google uses to grade websites from 0 to 100. Green (90–100) is the best rating.

Page tested	Speed — phone	Speed — computer	Accessibility	Best practices	SEO
Homepage (English)	96	100	100	100	100
Homepage (Spanish)	87	100	100	100	100
Auto insurance	98	100	100	100	100
Life insurance (Spanish)	99	100	100	100	100
Sparks city page	99	100	100	100	100
Blog article	98	100	100	100	100
Get a Quote	97	100	100	100	100
Contact	90	100	100	100	100
About	96	100	100	100	100

Phone tests simulate a slow phone on a slow mobile connection, so scores vary by a few points between runs. Tested on the finished site before upload.

Every problem from the first audit — status

#	Problem found before	Status on the new website
1	Website was slow (~6 sec)	**✓ Fixed — 0.5 sec on computers, about 2 sec on slow phones**
2	City pages had the wrong titles	**✓ Fixed — every page has its own correct title, e.g. "Reno, NV Insurance Agency"**
3	A competitor's name ("Direct Auto") was used	**✓ Removed everywhere**
4	Google didn't "know" it's a local agency	**✓ Fixed — business details (address, phone, areas served, services, team) added for Google on every page**
5	Phone visitors saw no message on the first screen	**✓ Fixed — full-screen headline, quote button and phone number; plus a Call / Text / Quote bar**
6	Risky "99.9% Claims Approved" claim	**✓ Removed — replaced with real facts (5.0 Google rating, 300+ lives protected)**
7	Typo "Statewide Nevada ," on a city page	**✓ Fixed — all 15 city pages rewritten**
8	Wrong / copy-paste page descriptions	**✓ Fixed — 84 unique descriptions, all the right length**
9	Chat box popped up by itself	**✓ Fixed — a calm help button that opens only when clicked**
10	Hard-to-read text on the main photo	**✓ Fixed — dark gradient behind the text, people in the photo stay visible**
11	Thin blog, no named experts	**◐ Improved — all 8 articles redesigned and translated, with contents lists; a named licensed author is still needed (page 5)**
12	Odd or unrealistic wording	**✓ Fixed — wording rewritten in clear, professional language**
13	Counters showed "0+" before loading	**✓ Fixed — real numbers are in the page**
14	Menu links pointed to old addresses	**✓ Fixed — and every old address now forwards to the right new page**
15	Spanish version was machine-translated only	**✓ Fixed — 42 real Spanish pages Google can find**
16	No sharing preview picture	**✓ Fixed — every page has its own preview picture**

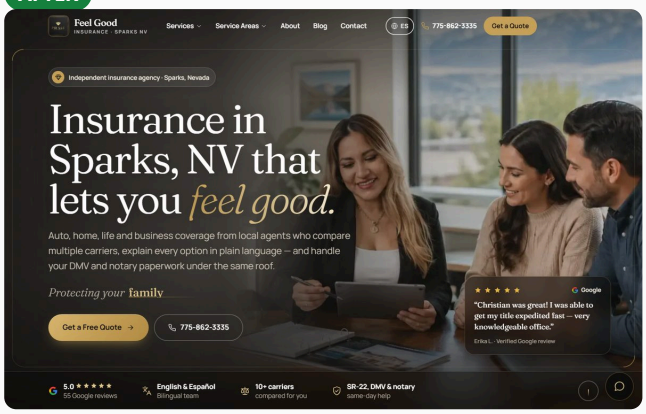

What visitors see now

BEFORE

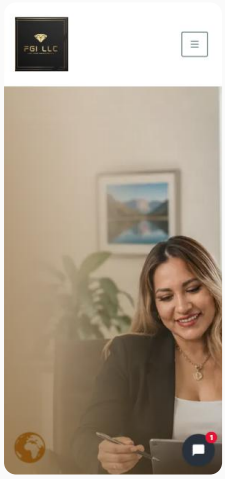

Old site: text over faces, chat box covering the page, slow to load.

AFTER

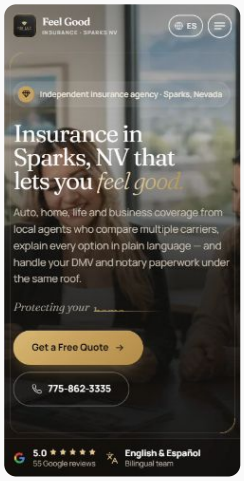

New site: full-screen photo, clear headline, real Google review, trust bar at the bottom.

BEFORE

Phone: only a photo — no headline, no button, no phone number.

AFTER

Phone: headline, quote button, one-tap call and Google rating on the very first screen.

New features visitors get

2-minute quote form
Step-by-step form for any coverage, with the answers sent straight to the agency.

Coverage finder
Visitors tick what they own and instantly see what coverage they need.

Life insurance calculator
Sliders estimate how much life insurance a family needs.

English / Español
One click switches any page to the other language.

Call · Text · Quote bar
Always one tap away on phones.

Service-area map
Interactive map of the 15 Nevada communities served.

What’s left to reach a perfect 10

The website itself is complete. These last items need information or action from the business owner:

1. Office hours

The old site never listed opening hours. Once added, Google and the site can show “Open now”.

2. License numbers & named author

Showing the agents’ Nevada license numbers and a named author on articles makes the site more trustworthy to visitors and to Google.

3. Google Business Profile & more reviews

Not part of the website, but the biggest factor for appearing in Google Maps. Keep the profile complete and keep collecting reviews.

4. Privacy policy review

The policy (copied unchanged from the old site) mentions a tool the new site doesn’t use. A quick legal review is recommended.

Scores measured on October 9–10, 2026 with Google Lighthouse 12 on the finished new website before it goes live. Old-site figures come from the first audit (October 8, 2026).
